COLLECTIONS

Alimentato da una forte vocazione internazionale, Serenissima Ceramiche, può contare su un network efficiente in grado di raggiungere ogni parte del mondo e di rispondere ad ogni richiesta sia attraverso un servizio di logistica e management perfettamente strutturato, sia mediante la collaborazione con distributori e rivenditori attivi in zona. Sinonimo di alta qualità Serenissima offre un'ampia gamma di prodotti realizzati con le tecnologie Made in Italy più all'avanguardia, per garantire sempre ai propri mercati le massime prestazioni in termini di ricercatezza estetica, design e resistenza tecnica.

Inspired by its strong international leanings, Serenissima Ceramiche relies on an efficient network able to reach all parts of the world and respond to any request both by calling on its perfectly-structured logistics and management service, and through its collaboration with distributors and dealers in the local area. Serenissima is synonymous with high quality, and offers a wide range of products created with cutting-edge, Italian-made technologies to guarantee that its market always has maximum performances in terms of beauty, design and technical strength.

Nourri par une forte vocation internationale, Serenissima Ceramiche peut compter sur un réseau efficace en mesure d'atteindre n'importe quelle région du monde et de répondre à toutes les demandes à l'aide d'un service logistique et de management parfaitement structuré, en collaboration avec des distributeurs et des revendeurs sur place. Serenissima est synonyme de haute qualité et propose une vaste gamme de produits réalisés avec les technologies italiennes les plus avancées, pour toujours garantir à ses marchés des prestations optimales en termes de recherche esthétique, de design et de résistance technique.

Serenissima Ceramiche kann anhand seiner starken internationalen Veranlagung auf ein effizientes Network stützen, das jeden Teil der Welt erreicht und allen Anforderungen gerecht wird, sowohl durch einen perfekt strukturierten Logistik- und Management-Service als auch durch die Zusammenarbeit mit gebietstätigen Vertrieben und Händlern. Serenissima steht für oberste Qualität und bietet ein breites Produktsortiment, das mit den fortschrittlichsten Made in Italy Technologien gefertigt wird, um den Märkten immer die höchsten Leistungen in puncto ästhetische Erlesenheit, Design und technische Widerstandsfähigkeit zu garantieren.

Взяв уверенный курс на работу на международных рынках, Serenissima Ceramiche опирается на эффективную сеть для обслуживания любой страны мира и удовлетворения любых запросов, основанную на логистическом сервисе и идеально выстроенной системе менеджмента, а также на сотрудничестве с местными дистрибьюторами и дилерами. Концерн Serenissima, превратившийся в синоним качества, предлагает обширный ассортимент продукции, изготовленной по самым передовым и стопроцентно итальянским технологиям, чтобы гарантировать потребителям соответствующих рынков максимальные эксплуатационные характеристики, изысканные эстетические качества, великолепный дизайн и прочность.

RICERCA E SVILUPPO

RESEARCH AND DEVELOPMENT . RECHERCHE ET DÉVELOPPEMENT . FORSCHUNG UND ENTWICKLUNG . ИССЛЕДОВАНИЯ И РАЗВИТИЕ

Serenissima Ceramiche è sempre attenta al proprio sviluppo industriale, per questo, investe in risorse umane, finanziarie ed immobiliari e pone il massimo impegno nell'implementazione tecnologica e nell'aggiornamento costante degli strumenti di comunicazione. Fiore all'occhiello della società, il settore ricerca e sviluppo, è il cuore dell'evoluzione produttiva: il laboratorio Serenissima, diviso in unità specifiche per ogni singolo marchio, ma sempre cooperanti fra loro, assicura una conoscenza approfondita delle applicabilità delle materie prime, una gestione oculata e creativa delle reazioni chimiche che conferiscono al prodotto il suo caratteristico design e un'ottimizzazione pilota per la successiva produzione.

Serenissima Ceramiche puts great emphasis on its industrial development, and so invests in human and financial resources and real estate, and is committed to implementing technologies and constantly updating communication tools. The company's pride and joy is its research and development sector, at the heart of its productive evolution. The Serenissima laboratory is divided into specific, but co-operating, units for every single brand. This guarantees an in-depth knowledge of the application potential of the raw materials and a shrewd, yet creative management of the chemical reactions which give the product its characteristic design, allowing the materials to be optimised prior to production.

Toujours attentif à son développement industriel, Serenissima Ceramiche investit dans les ressources humaines, financières et immobilières et s'engage pleinement dans l'application technologique et l'actualisation constante de ses outils de communication. Le service Recherche et Développement, fleuron de l'entreprise, est au cœur de l'évolution de la production: le laboratoire Serenissima, divisé en unités spécifiques pour chaque marque mais qui coopèrent toujours entre elles, assure une connaissance approfondie des applications des matières premières, une gestion avisée et créative des réactions chimiques qui confèrent au produit son design caractéristique et une optimisation pilote pour la production.

Serenissima Ceramiche widmet der eigenen industriellen Entwicklung immer die größte Aufmerksamkeit, investiert in menschliche und finanzielle Ressourcen und Immobilien und steckt größte Bemühungen in die technologische Implementierung und konstante Aktualisierung der Kommunikationsmittel. Der Bereich Forschung und Entwicklung ist das Schmuckstück der Gesellschaft und das Herz der produktiven Evolution: Das Labor Serenissima ist nach einzelnen Marken in spezifische, jedoch untereinander stets kooperierende Einheiten aufgeteilt und sichert eine tiefgreifende Kenntnis der Anwendbarkeit der Rohstoffe, einen umsichtigen und kreativen Umgang mit den chemischen Reaktionen, die dem Produkt sein charakteristisches Design verleihen und eine für die Produktion wegweisende Optimierung.

Serenissima Ceramiche неизменно уделяет особое внимание своему промышленному развитию, поэтому концерн осуществляет инвестиции в человеческие и финансовые ресурсы, а также в сферу недвижимости, делая все возможное для повышения технологического уровня и постоянное обновление средств коммуникации. Гордостью концерна является сфера исследований и развития, представляющая собой сердцевину эволюции производственной системы: Serenissima располагает собственной лабораторией с различными подразделениями, каждое из которых обслуживает отдельный бренд. Все подразделения тесно взаимодействуют друг с другом и обеспечивают углубленное изучение пригодности того или иного сырья, рациональное и креативное управление химическими реакциями, которые формируют характерный дизайн изделий, и экспериментальную оптимизацию процессов для последующего внедрения в производство.

ECOSOSTENIBILITÀ

ECO-SUSTAINABILITY . ÉCO-DURABILITÉ . NACHHALTIGKEIT . ЭКОЛОГИЧЕСКАЯ РАЦИОНАЛЬНОСТЬ

Oggi mai come prima la qualità è sinonimo di rispetto dell'ecosistema: produrre superfici belle da vedere non basta, occorre che esse nascano dalla volontà di preservare il futuro dell'uomo e dell'ambiente. Certo che la produzione di oggi sia quindi un investimento per il domani, Serenissima Ceramiche ha profuso notevoli energie in investimenti tecnologici in grado di assicurare alle persone una produzione che le protegga e che tuteli la natura, riducendo il consumo di energia e lo sfruttamento delle risorse, a cominciare dalle materie prime. A questo affianca un'oculata campagna di certificazioni volte a garantire ai suoi mercati solo prodotti realizzati nel rispetto dell'uomo e dell'ambiente.

Today, more than ever, quality is synonymous with respect for the eco-system; producing surfaces that are beautiful to look at is not enough; they have to be produced with the will to preserve the future of mankind and the environment. In the firm belief that today's production is an investment for tomorrow, Serenissima Ceramiche has devoted a great deal of effort to making technological investments able to ensure that people have a production that will protect them and safeguard the natural environment, by reducing energy consumption and the exploitation of natural resources, starting with the raw materials. Alongside this, the Group also has very sensibly campaigned for certifications aimed at guaranteeing that its markets have only products manufactured with respect for human beings and for the environment.

Plus que jamais, la qualité doit être synonyme de respect de l'écosystème: il ne suffit pas de produire des surfaces belles à regarder, il faut qu'elles naissent de la volonté de préserver l'avenir de l'homme et de l'environnement. Convaincue que la production d'aujourd'hui est un investissement pour demain, Serenissima Ceramiche a donc considérablement investi dans des solutions technologiques susceptibles d'assurer aux personnes une production qui les protège et protège au même temps la nature, en réduisant la consommation d'énergie et l'exploitation des ressources, à commencer par les matières premières. Ceramica Serenissima mène en parallèle une judicieuse campagne de certification, destinée à garantir à ses marchés des produits exclusivement réalisés dans le respect de l'homme et de l'environnement.

Wie nie zuvor ist Qualität heute ein Synonym für den Respekt des Ökosystems: Es genügt nicht, einfach nur Oberflächen zu produzieren, die schön aussehen, sondern sie müssen auch aus dem Willen entstehen, die Zukunft der Menschen und Umwelt zu wahren. In der Überzeugung, dass die heutige Produktion eine Investition für die Zukunft ist, hat Serenissima Ceramiche erhebliche Energien in technologische Investitionen gesteckt, die den Menschen eine Produktion sichern, die sie und ihre Umwelt schützt und den Energieverbrauch und die Nutzung der Naturressourcen reduziert, angefangen von den Rohstoffen. Diesem Zweck dient eine aufmerksame Zertifizierungskampagne des Konzerns, die den Absatzmärkten Produkte sichert, die ausschließlich mit Respekt vor Mensch und Natur entstehen.

Сегодня, как никогда раньше, качество является синонимом экологичности. Недостаточно производить красивые на вид поверхности: необходимо, чтобы их создатели исходили из стремления сберечь будущее человека и окружающей среды. Концерн Serenissima Ceramiche, уверенный в том, что нынешнее производство представляет собой инвестиции в завтрашний день, прилагает существенные усилия и осуществляет масштабные капиталовложения в развитие технологий, которые смогут обеспечить невредное производство и берегающее природу, сокращающее потребление энергии и использование ресурсов, начиная с сырья. Наряду с этим концерн проводит дальновидную кампанию сертификации с тем, чтобы гарантировать своим рынкам продукцию, произведенную без вреда для людей и окружающей среды.
