Cultura di Progetto Design Culture

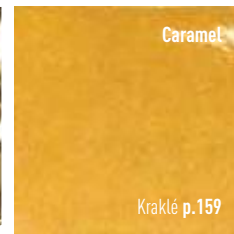

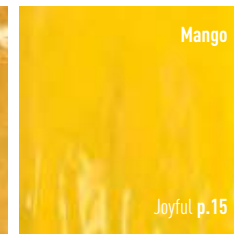

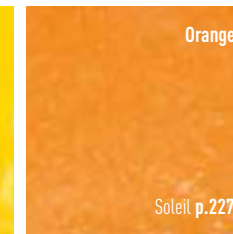

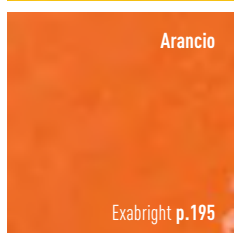

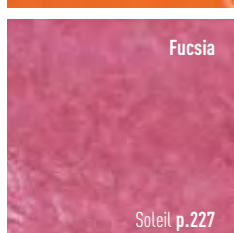

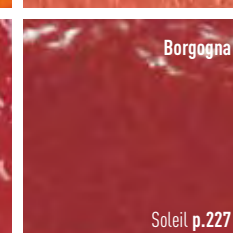

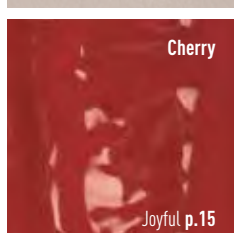

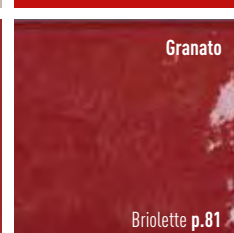

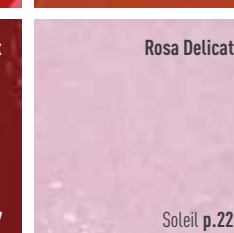

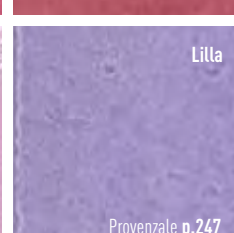

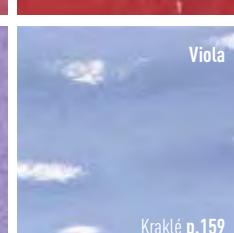

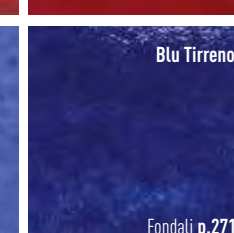

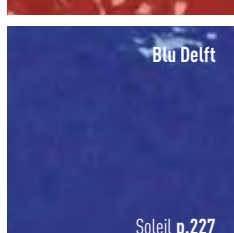

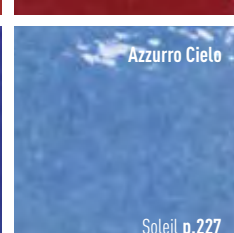

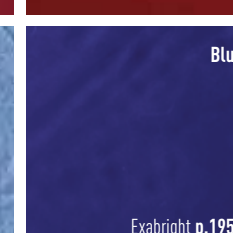

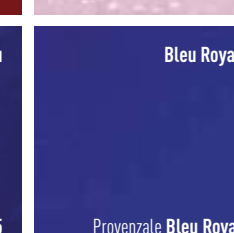

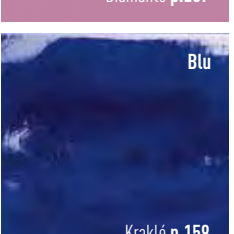

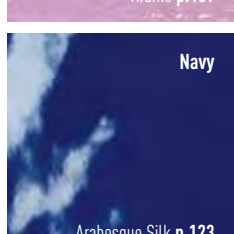

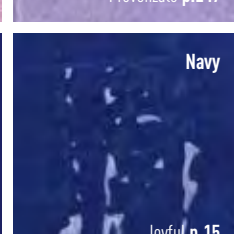

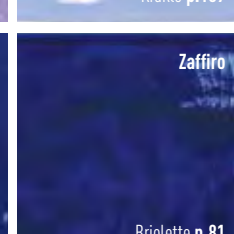

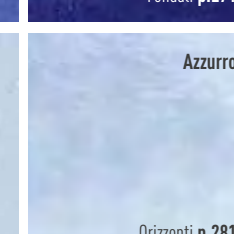

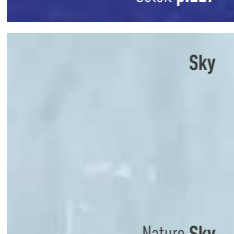

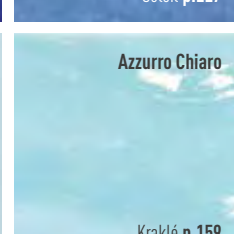

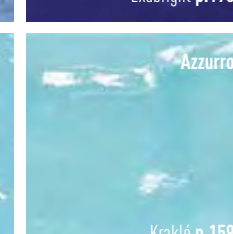

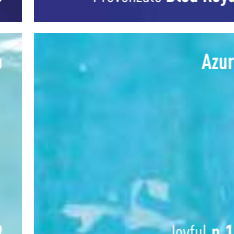

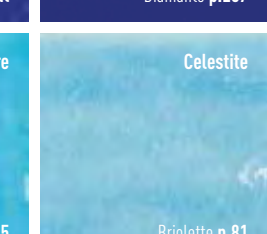

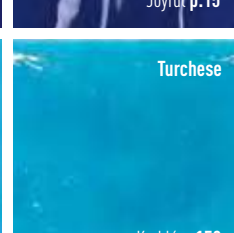

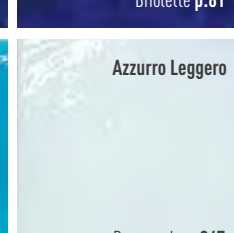

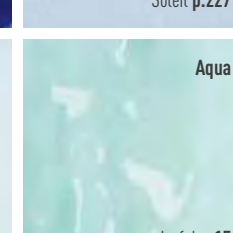

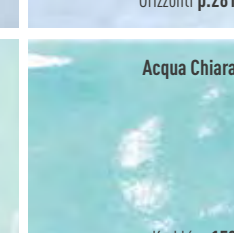

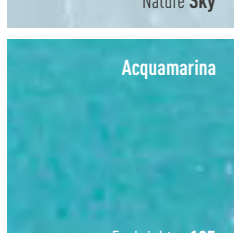

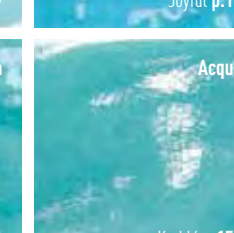

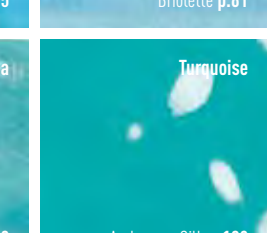

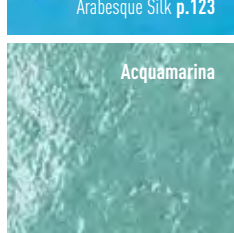

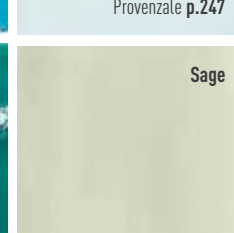

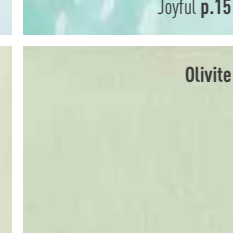

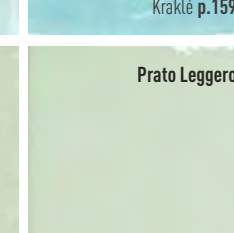

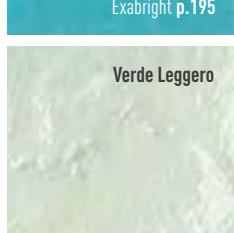

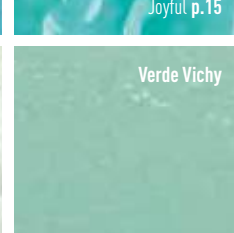

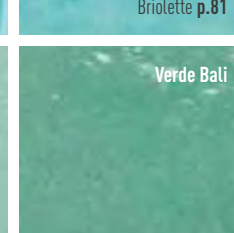

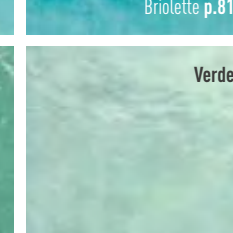

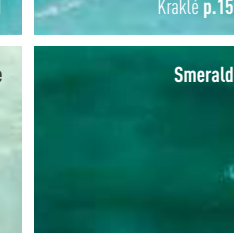

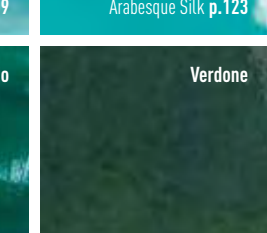

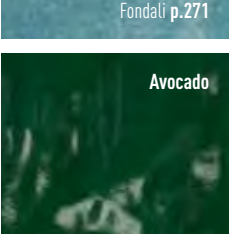

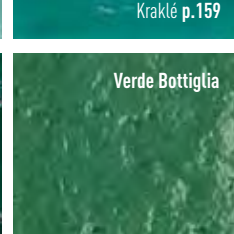

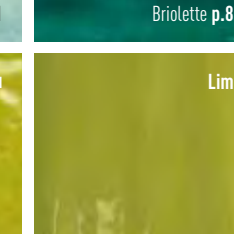

I prodotti Tonalite sono ideati e sviluppati per essere l'elemento con cui dare forma alla creatività. Studiati sulla base di un'ampia gamma cromatica e con una varietà complementare e versatile di forme e pezzi speciali, i prodotti Tonalite esaltano una cultura progettuale dove la materia è strumento per una libera realizzazione degli spazi. L'elemento ceramico è dunque il mezzo attraverso cui progettista e progetto possano esprimersi oltre i limiti di un'idea, creando originalità.

Tonalite products are conceived and developed to give concrete form to creativity. Designed on the basis of a vast range of colours with a complementary and versatile variety of different shapes and special pieces, Tonalite products underline a concept of design in which the material is seen as instrumental to free creation of spaces, and ceramic becomes a medium through which the designer and the design are expressed beyond the limitations of the idea, encouraging originality.

Estella è prodotta per estrusione in modo totalmente artigianale; pertanto differenze superficiali, di tono o di calibro sono da considerarsi proprie del materiale e non difetti.

ISTRUZIONI DI POSA

1. posare il materiale utilizzando collante per gres porcellanato;
2. consigliamo di posare i pezzi accostandoli e ruotandoli senza distanziarli in modo che risultino armonici e che creino automaticamente la fuga ideale;
3. caricare di collante non solo la superficie da pavimentare/rivestire ma anche il singolo pezzo per compensare le differenze di planarità che si potrebbero riscontrare in un prodotto trafilato;
4. stuccare le fughe e lisciarle con una spugna;
5. effettuare la pulizia finale fino a rimuovere gli eccessi di stucco ancora freschi;

Estella is an extruded and handmade product; therefore any surface difference or any diversity in shade or caliber should be considered as peculiar of the product instead of defects.

LAYING INSTRUCTIONS

1. lay the material using a glue for porcelain ceramic tiles;
2. we suggest you to follow the shape of individual pieces placing the mone next to each other and rotating them without leaving any space so that they are harmonious and automatically create the ideal joint;
3. load the adhesive not only on the floor/wall but also on the single piece to compensate different thickness of a drawn product;
4. level the joints using a sponge;
5. make the filan cleaning whit a sponge until all residual grout which is still wet has been removed.

Procedura per la posa | Procedure for the laying

Al fine di prevenire qualunque tipo di problema connesso alla natura dello smalto utilizzato per ottenere la caratteristica finitura "craquelé", la collezione Briolette deve essere trattata come descritto qui di seguito:
1 . posare le piastrelle;
2 . utilizzare esclusivamente un sigillante cementizio bianco;
3 . pulire accuratamente le piastrelle con un prodotto non acido (ad esempio Fila Cleaner);
4 . una volta che le piastrelle sono pulite ed asciutte stendere su di esse uno strato uniforme di prodotto protettivo (ad esempio Fila MP90).

In order to avoid any problem connected with the nature of the glaze used to obtain the typical "craquelé" finish, Briolette collection must be treated as follows:
1 . lay down the tiles;
2 . apply only white cementitious grout;
3 . clean well the tiles with a non-acid product (such as Fila Cleaner);
4 . once tiles are clean and dry lay an uniform coat of protector (such as Fila MP90).
