**mobilduenne**

For 30 years, Mobilduenne has distinguished itself in the bathroom furniture sector, combining aesthetics and functionality, innovation, and stylistic research. Mobilduenne designs furniture with the passion and enthusiasm of those who carefully choose their raw materials and work with attention to detail. Mobilduenne combines artisanal knowledge with the use of cutting-edge industrial technologies. Production is entirely in Italy to ensure high levels of quality and to directly oversee every phase. The range of solutions is extensive and varied, always up-to-date and enhanced by the product's durability.

Mobilduenne's bathrooms are focused on customization: of dimensions first and foremost, but also of models, materials, colors, finishes, and accessories. The collections are developed around adaptable basic modules in height, width, and depth.

Depuis 30 ans, Mobilduenne se distingue dans le secteur du mobilier de salle de bain en associant esthétique et fonctionnalité, innovation et recherche stylistique. Mobilduenne conçoit des meubles avec la passion et l'enthousiasme de ceux qui choisissent soigneusement leurs matières premières et travaillent avec une attention particulière aux détails.

Mobilduenne associe le savoir-faire artisanal à l'utilisation de technologies industrielles de pointe. La production est entièrement réalisée en Italie pour garantir des niveaux élevés de qualité et superviser directement chaque phase. La gamme de solutions est vaste et variée, toujours à jour et renforcée par la durabilité du produit.

Les salles de bain Mobilduenne sont axées sur la personnalisation : des dimensions en premier lieu, mais aussi des modèles, des matériaux, des couleurs, des finitions et des accessoires. Les collections sont développées autour de modules de base adaptables en hauteur, largeur et profondeur.

Mobilduenne, da 30 anni si distingue nel settore dell'arredo bagno, coniugando estetica e funzionalità, innovazione e ricerca stilistica.

Progetta mobili con la passione e l'entusiasmo di chi sceglie scrupolosamente le proprie materie prime, e lavora con cura dei dettagli.

Mobilduenne coniuga il sapere artigianale con l'utilizzo di tecnologie industriali all'avanguardia.

La produzione è interamente in Italia, per assicurare alti livelli di qualità e per seguire direttamente ogni fase.

La gamma di soluzioni è ampia e variegata, sempre attuale e potenziata dalla durabilità del prodotto.

I bagni Mobilduenne sono incentrati sulla personalizzazione: delle dimensioni prima di tutto, ma anche dei modelli, materiali, colori, finiture e accessori.

Le collezioni si sviluppano intorno ai moduli base adattabili in altezza, larghezza e profondità.

The service area becomes a place to live: the laundry room is structured into a flexible, functional, and contemporary design system. The cornerstone of the collection revolves around our strengths in bathroom furniture production: quality materials and attention to detail. The modular system consists of three different depths, seven widths, wall-mounted or floor-standing bases, with or without visible plinth. The laundry space is enriched with a wide range of solutions, equipment and internal accessories available for the bases and columns. Some of the equipment available in Oceano includes: laundry baskets in various solutions (on wheels, extractable on sliding guides or hinged), wall units with shelves and clothes hanger bars, integrated ironing boards, and metal accessory holder bars. In addition, there are bases available with integrated, semi-recessed or countertop sinks, as well as washbasins with multiple sizes and materials.

L'espace de service devient un lieu de vie : la buanderie est structurée en un système flexible, fonctionnel et au design contemporain. Le pivot de la collection tourne autour de nos points forts dans la production de mobilier de salle de bains : la qualité des matériaux et l'attention portée aux détails. Le système modulaire comprend trois profondeurs différentes, sept largeurs, des bases suspendues ou au sol, avec ou sans socle apparent. L'espace buanderie est enrichi d'une large gamme de solutions, d'équipements et d'accessoires internes disponibles pour les bases et les colonnes. Parmi les équipements présents dans Oceano, on trouve des paniers à linge dans différentes solutions (sur roulettes, extractibles sur des rails coulissants ou à abattant), des étagères avec des tablettes et des barres de suspension, des planches à repasser intégrées et des barres métalliques porte-accessoires. En outre, des bases avec lavabo intégré, semi-encastré ou à poser et des éviers avec de multiples dimensions et matériaux sont disponibles.

## OCEANO, LAVANDERIA

Lo spazio di servizio diventa luogo da vivere: la lavanderia si struttura in un sistema flessibile, funzionale e dal design attuale. Il cardine della collezione ruota attorno ai punti di forza della produzione : la qualità dei materiali e la personalizzazione. Il sistema componibile conta tre diverse profondità, sette larghezze, basi sospese o a terra, con o senza zoccolo a vista. Lo spazio lavanderia è arricchito da una vasta gamma di soluzioni, attrezzature e accessori interni disponibili per le basi e per le colonne. Tra le attrezzature presenti in Oceano troviamo: cestoni portabiancheria in diverse soluzioni (su ruote, estraibili su guide scorrevoli o a ribalta), pensili con ripiani e barre appendiabiti, assi da stiro integrati e barre metalliche porta accessori. Inoltre, sono disponibili basi con lavabo integrato, semincasso o ad appoggio e lavatoi con molteplici dimensioni e materiali.

The laundry program offers top with integrated sinks made of two different materials: acrylic and Ocritch. Both materials are available in glossy and matte white finishes, to meet every style and design need. These tops are highly customizable and allow for tailor-made compositions to meet the specific needs of each customer. In addition, some of the available sinks have a groove that allows for the insertion of washing boards, offering greater flexibility and convenience during use.

Le programme de buanderie propose des plans de travail avec des vasques intégrées fabriquées dans deux matériaux différents : Solid surface et Ocritch. Les deux matériaux sont disponibles dans des finitions blanches brillantes et mates, pour répondre à tous les besoins de style et de design. Ces plans de travail sont hautement personnalisables et permettent de réaliser des compositions sur mesure pour répondre aux besoins spécifiques de chaque client. De plus, certaines des vasques disponibles ont une rainure qui permet l'insertion de planches à laver, offrant ainsi une plus grande flexibilité et commodité lors de l'utilisation.

## VASCHE INTEGRATE

Il programma lavanderia offre top con vasche integrate realizzati in due materiali differenti: acrilico e Ocritch. Entrambi i materiali sono disponibili nelle finiture bianco lucido e opaco, per soddisfare ogni esigenza di stile e design. Questi top sono altamente personalizzabili e permettono di realizzare composizioni su misura per soddisfare le esigenze specifiche di ogni cliente.

Inoltre, alcune delle vasche disponibili presentano un'insenatura che permette l'inserimento di assi lavatoio, offrendo maggiore flessibilità e comodità durante l'utilizzo.

## LAVABI SEMINCASSO

La soluzione ideale per ambienti ridotti consiste nell'inserire un top con lavabo a semincasso, che permette di avere in soli 40 cm di profondità tutti i comfort di una lavanderia su misura. La vasca profonda 22 cm e i modelli, materiali, finiture, accessori e attrezzature della collezione Oceano arricchiscono ulteriormente la lavanderia, incentrata sulla massima flessibilità.

The ideal solution for small spaces is to install a sink with a top that is semi-recessed, allowing you to have all the comforts of a tailor-made laundry room in just 40 cm of depth. The sink is 22 cm deep and the models, materials, finishes, accessories, and equipment from the Oceano collection further enrich the laundry room, which is focused on maximum flexibility.

La solution idéale pour les petits espaces est d'installer un évier avec un plan semi-encastré, vous permettant d'avoir tout le confort d'une buanderie sur mesure en seulement 40 cm de profondeur. L'évier a une profondeur de 22 cm et les modèles, les matériaux, les finitions, les accessoires et les équipements de la collection Oceano enrichissent encore davantage la buanderie, qui est axée sur une flexibilité maximale.

The constant search for customizable solutions has led to the creation of a collection of countertop washbasins, available in ceramic or mineral marble, in both glossy and matte finishes. These washbasins have been designed to meet the stylistic and functional needs of modern laundry rooms. The main feature of these washbasins is the possibility to combine them with tops made of different materials, such as wood, lacquer, quartz, stoneware, and marble, offering a wide range of choices for customizing the environment. Their ergonomic shape and adequate depth ensure maximum comfort during use.

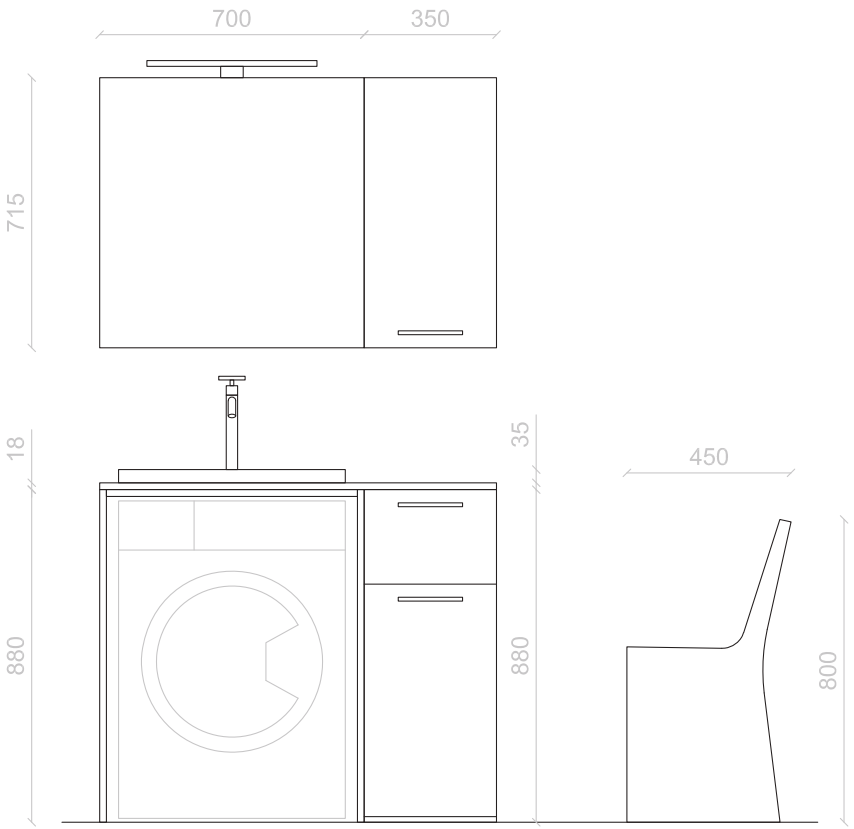

La recherche constante de solutions personnalisables a conduit à la création d’une collection de lavabos à poser, disponibles en céramique ou en marbre minéral, avec des finitions brillantes ou mates. Ces lavabos ont été conçus pour répondre aux besoins de style et de fonctionnalité des buanderies modernes. La caractéristique principale de ces lavabos est la possibilité de les combiner avec des dessus fabriqués à partir de différents matériaux, tels que le bois, le laqué, le quartz, la céramique, et le marbre, offrant ainsi une large gamme de choix pour personnaliser l’environnement. Leur forme ergonomique et leur profondeur adéquate garantissent un confort maximum pendant l’utilisation.

## LAVABI IN APPOGGIO

La ricerca costante di soluzioni personalizzabili ha portato alla creazione di una collezione di lavabi in appoggio, disponibili in ceramica o mineralmarmo, sia in finitura lucida che opaca. Questi lavabi sono stati ideati per rispondere alle esigenze di stile e funzionalità. La caratteristica principale di questi lavabi è la possibilità di abbinarli a top realizzati con diversi materiali, come legni, laccati, quarzi, gres e marmi, offrendo una vasta gamma di scelte per la personalizzazione dell’ambiente. La loro forma ergonomica e la profondità adeguata garantiscono massimo comfort durante l'utilizzo.
